PURPOSE

Discuss the National Environmental Policy Act (NEPA) and the coordination of sound and efficient environmental reviews for Federal decisions and investments. This will be a higher-level discussion featuring a brief update on our ongoing efforts and discussion of the ways in which NEPA can be deployed to address President Biden's multi-faceted priorities including building resilient infrastructure and transitioning to a clean energy economy, while ensuring reason-based decision-making and community engagement. In that vein, we hope to hear any particularly NEPA-related challenges you are facing in moving forward on Administration priorities as well as opportunities you see that will enable delivery of environmentally beneficial outcomes in a timely manner.

BACKGROUND

As you know, the President has asked the Council on Environmental Quality to review the 2020 NEPA regulations, promulgated by the previous administration, and to consider whether and how to update guidance to Federal agencies on considering greenhouse gas emissions during in NEPA analyses. CEQ and the Office of Management and Budget are also, consistent with direction in EOs 13990 and 14008, considering whether to recommend

Dear Alex,

Please find attached EPA's response to the data call in EO 13990 to identify "a preliminary list of any actions being considered pursuant to section (2)(a) of [EO 13990] that would be completed by December 31, 2021, and that would be subject to OMB review." Our list of 29 such actions is attached.

Please consider this list to be preliminary. Some of the actions included are pending further policy discussion and deliberation and as a result may not be signed in 2021. For your convenience, we have included RINs to help identify the actions. RINs with a * are old, and relate to the prior final action that is currently being reviewed.

Please let me know if you have any questions or would like to discuss further. Thank you. Have a good weekend!

Thank you all! It would be very helpful if OMB could please provide more guidance about how to reconcile some overlapping data calls in terms of scope and timing please. We see the new one to be discussed on 2/23 following what was just submitted in the first 30 day information, and are preparing for the spring regulatory review and the other data call in EO 13990. There are overlapping but not consistent requests that we are trying our best to keep track of, but more coordination – including with the usual agency contact points (RPO and Regulatory Seconds) would be greatly appreciated and could help avoid confusion.

Thank you!
Best,
Vicki

Greetings Colleagues,

Hope you, your families, and your teams are all well and safe. As we continue the process of defining the regulatory agenda for the Biden Administration, we wanted to follow up with you on further planning related to E.O 13990 "Protecting Public Health and the Environment and Restoring Science To Tackle the Climate Crisis". We have received

your initial submissions in response to Sec 2(b), laying out actions being considered for action by Dec 31, 2021 which have been useful as an input to policy planning. We are following up to execute on the second deadline in the E.O. which requests an updated list of any actions being considered pursuant to section 2(a) of the E.O. which would be completed by Dec 31, 2025. Recognizing this is a busy time, we are trying to tailor this call to minimize additional process. **We ask that you submit updates by April 20th, 2021, details below.**

Thank you all! It would be very helpful if OMB could please provide more guidance about how to reconcile some overlapping data calls in terms of scope and timing please. We see the new one to be discussed on 2/23 following what was just submitted in the first 30 day information, and are preparing for the spring regulatory review and the other data call in EO 13990. There are overlapping but not consistent requests that we are trying our best to keep track of, but more coordination – including with the usual agency contact points (RPO and Regulatory Seconds) would be greatly appreciated and could help avoid confusion.

Thank you!

Hello Vicki and Phil,

Following up on the EO 13990 90-day data call, it is unclear when the additional guidance will be provided by OMB on the 90-day list of actions. We will proceed to “hold” until we receive additional information.

Please let us know if you have any additional updates.

Thank you!

Joseph and Roque,

Please find attached EPA's response to the data call in EO 13990 to identify a list of actions being considered pursuant to section (2)(a) of [EO 13990] that would be completed by December 31, 2025. This original request was further clarified via an email sent by OMB on April 2, 2021 that stated, "In light of previous submissions, we are only asking agencies to provide actions for suspension, revision or revocation that have not been provided in the earlier collections (i.e. the 13990 30-day data call, the March 3rd call for unwinding regulatory actions, and the current regulatory agenda.)" To that end, we have reviewed all previously submitted actions and have identified 4 additional actions to be included for this data call (Please see attached).

Please consider this list to be preliminary and subject to change due to continued policy level discussions and deliberations. Please let me know if you have any questions or would like to discuss further.

Thank you.

Amanda,

Please find attached EPA's response to the data call in EO 13990 to identify "a preliminary list of any actions being considered pursuant to section (2)(a) of [EO 13990] that would be completed by December 31, 2021, and that would be subject to OMB review." Our list of 29 such actions is attached.

Please consider this list to be preliminary. Some of the actions included are pending further policy discussion and deliberation and as a result may not be signed in 2021. For your convenience, we have included RINs to help identify the actions. RINs with a * are old, and relate to the prior final action that is currently being reviewed.

Please let me know if you have any questions or would like to discuss further. Thank you.

PURPOSE

Discuss the National Environmental Policy Act (NEPA) and the coordination of sound and efficient environmental reviews for Federal decisions and investments. This will be a higher-level discussion featuring a brief update on our ongoing efforts and discussion of the ways in which NEPA can be deployed to address President Biden's multi-faceted priorities including building resilient infrastructure and transitioning to a clean energy economy, while ensuring reason-based decision-making and community engagement. In that vein, we hope to hear any particularly NEPA-related challenges you are facing in moving forward on Administration priorities as well as opportunities you see that will enable delivery of environmentally beneficial outcomes in a timely manner.

BACKGROUND

As you know, the President has asked the Council on Environmental Quality to review the 2020 NEPA regulations, promulgated by the previous administration, and to consider whether and how to update guidance to Federal agencies on considering greenhouse gas emissions during in NEPA analyses. CEQ and the Office of Management and Budget are also, consistent with direction in EOs 13990 and 14008, considering whether to recommend

Greetings Colleagues,

Hope you, your families, and your teams are all well and safe. As we continue the process of defining the regulatory agenda for the Biden Administration, we wanted to follow up with you on further planning related to E.O 13990 "Protecting Public Health and the Environment and Restoring Science To Tackle the Climate Crisis". We have received your initial submissions in response to Sec 2(b), laying out actions being considered for action by Dec 31, 2021 which have been useful as an input to policy planning. We are following up to execute on the second deadline in the E.O. which requests an updated list of any actions being considered pursuant to section 2(a) of the E.O. which would be completed by Dec 31, 2025. Recognizing this is a busy time, we are trying to tailor this call to minimize additional process. **We ask that you submit updates by April 20th, 2021, details below.**

Subject: National Environmental Policy Act meeting

Dear Colleagues,

I am writing to invite you to a meeting on Friday, July 23 at 1:00pm ET to discuss the National Environmental Policy Act (NEPA) and the coordination of sound and efficient environmental reviews for Federal decisions and investments.

As you know, the President has asked the Council on Environmental Quality to review the 2020 NEPA regulations, promulgated by the previous administration, and to consider whether and how to update guidance to Federal agencies on considering greenhouse gas emissions in NEPA analyses.
